Illustrations of product, accessories, and user interface in the user manual are for reference purposes only. Actual product and functions may vary due to product enhancements.

Specifications

Name: Xiaomi 33W Charging Combo (Type-A)

Model: MDY-11-EZ

Output Port: USB-A

Input: 100-240V~, 50/60Hz, 0.7A

Output: 5.0V 3.0A 15.0W/9.0V 3.0A 27.0W/12.0V 2.25A 27.0W/20.0V 1.35A
27.0W/11.0V 3.0A 33.0W Max

Operating Temperature: -10°C~40 °C

Item Dimensions: 72.5*46.8*28mm (excl. prongs)

No-load Power Consumption: $\leq 0.075W$

Product Features

The 33W PD charger is a small and compact portable charger, with a sophisticated exterior and wide range of device compatibility that offers a great user experience.

- **Safety:** Multiple safety features, including short-circuit protection, overcurrent protection, output overvoltage protection, output undervoltage protection, overheat protection, static electricity protection, lightning strike protection, etc. The case is made of white flame-retardant PC material and UL94-V0 grade flame-resistant and high-temperature resistant material. Performance is safe and reliable.
Compatibility: Built-in smart identification chip, compatible with the vast majority of electronic devices such as smartphones and tablets on the market.
- **Port:** When used with the original Xiaomi charging cable, it can safely charge the majority of devices with a USB-C port on the market, with smart fast charging power up to 33W.
- **Applicable:** Suitable for use at altitudes up to 2000 meters.
- **Appearance:** Using common two-stage ultrasonic cover welding, the main body is treated to get a bright finish and the top cover is treated to get a grainy grey surface. Uses a single USB-A output. Compact and portable, easy to carry.
