## Mop Pad Replacement Instructions

---

1. Remove the mop pad from the water tank.
2. Dampen the new mop pad and wring out excess water, then attach it securely to the bottom of the water tank.

Note: A worn or damaged mop pad that no longer sticks to the water tank should be replaced to ensure optimal cleaning performance.

## Filter Replacement Instructions

---

1. Use your fingers to slide out old water dispenser filters on the left and right sides of each slot.
2. Insert the new water dispenser filters and check to ensure they are installed correctly.

Note: To ensure optimal mopping effectiveness, it is recommended to replace water dispenser filters once every 3 to 6 months depending on water quality and frequency of use.
